Abriola, L. M. and J. M. Bahr: IAHS/AGU Symposium on Groundwater Contamination, 171

Ackman, T. E. and J. R. Jones: Methods to Identify and Reduce Potential Surface Stream Water Losses into Abandoned Underground Mines, 227

Alley, W. M. and P. Cohen: A Scientifically Based Nationwide Assessment of Groundwater Quality in the United States, 17

Amajor, L. C.: Aquifers in the Benin Formation (Miocene–Recent), Eastern Niger Delta, Nigeria: Lithostratigraphy, Hydraulics, and Water Quality, 85

Biksham, G., V. Subramanian, A. L. Ramanathan, and R. van Grieken: Heavy Metal Distribution in the Godavari River Basin, 117

Brookins, D. G.: Correlation of Soil Radon and Uranium with Indoor Radon in the Albuquerque, New Mexico Area, 209

Cawley, W. A.: Editorial—U.S. Environmental Cleanups —RCRA, 169

Choubey, V. D.: Hydrogeological and Environmental Impact of Coal Mining, Jharia Coalfield, India, 185

Choubey, V. D. and R. K. Rawat: Hydrogeologic and Environmental Impact of Amjhore Pyrite Mines, India, 51

Dragovich, D.: Marble Weathering in an Industrial Environment, Eastern Australia, 127

Drake, C. L.: Editorial—-The Interface between Past and Future, 1

Faillat, J. P. and A. Rambaud: Deforestation and Leaching of Nitrogen as Nitrates into Underground Water in Intertropical Zones: The Example of Côte d'Ivoire, 133

Fazeli, M. S., S. Sathyanarayan, P. N. Satish, and L. Muthanna: Effect of Paper Mill Effluents on Accumulation of Heavy Metals in Coconut Trees near Nanjangud, Mysore District, Karnataka, India, 47

Gerhard, L. C.: Editorial—The Professional Image: Student, Professor, Practitioner, 63

Godfrey, A. E. and E. T. Cleaves: Landscape Analysis: Theoretical Considerations and Practical Needs, 141

Johnson, K. S.: Regional Hydrogeological Screening Characteristics Used for Siting Near-Surface Waste-Disposal Facilities in Oklahoma, U.S.A., 3

Leoni, L., F. Sartori, M. Saitta, V. Damiani, O. Ferretti, and M. Viel: Mineralogy, Chemistry, and Grain Size Composition of Recent Sediments in the Northern Tyrrhenian Sea: Contribution to the Study of Sediment Transport and Distribution, 23

Leoni, L., F. Sartori, V. Damiani, O. Ferretti, and M. Viel: Trace Element Distributions in Surficial Sediments of the Northern Tyrrhenian Sea: Contribution to Heavy-Metal Pollution Assessment, 103

Moussa, O. M., S. E. Smith, and R. L. Shrestha: A Hydrologic Regression Sediment-Yield Model for Two Ungaged Watershed Outlet Stations in Africa, 177

Östlund, P. and R. O. Hallberg: Plutonium in Sediments —Apparent Half-lives, 195

Schrader, E. L.: Remediation of Floating, Open Water Oil Spills: Comparative Efficacy of Commercially Available Polypropylene Sorbent Booms, 157

Soliman, M., A. El-Mongy, M. Talaat, A. Hassan, and U. Maniak: Groundwater Quality Model with Applications to Various Aquifers, 201

Stine, S.: Geomorphic, Geographic, and Hydrographic Basis for Resolving the Mono Lake Controversy, 67

Theodorou, A. J. and C. Perissoratis: Environmental Considerations for Design of the Athens Sea Outfall, Saronikos Gulf, Greece, 233

Turner, J. P. and R. A. Rothwell: Geotechnical Properties of Combusted Western Oil Shale, 249

Vrba, J. and V. Pěkný: Groundwater-Quality Monitoring —Effective Method of Hydrogeological System Pollution Prevention, 9

Zaihua, L., Y. Daoxian, and S. Zhaoli: Effect of Coal Mine Waters of Variable pH on Springwater Quality: A Case Study, 219
